TOGETHER, ENDING HUNGER IS POSSIBLE.

May 25th

Do We Still Need To Mask Up?

As you know, the CDC released a [statement](#) this month saying that vaccinated people no longer need to mask up. **So what does that mean for your program?**

Ultimately, this will be a decision for you and your board. You can use your best judgement to set reasonable guidelines regarding masks. With the Feed My People service area covering 14 different counties, we recommend you consider the following:

- Follow local health department policies.
- Regardless of masks, it is still wise to social distance.
- If you distribute TEFAP food, the WI TEFAP Food Distribution Protocol Recommendations are still in place through September 30th, 2021. Please discuss any changes with your EFO.
- Whether you decide masks are required or optional, be sure to communicate your policy to volunteers and guests.

If you would like to talk about this with a Field Services team member, feel free to give us a call!

Are You Noticing Less Guests?

We have heard from many of you that the number of guest coming for food has gone down. Below are some things that could have contributed to the decrease in guests.

- Maximum FoodShare benefits
- Stimulus checks
- Tax Refunds
- Child Tax Credits (starting in July)

We do not know how long these extra benefits will last but we do believe that when this aid starts to drop off, the guest will likely return to your pantries and programs. So for now, rejoice in the fact that people are being fed, but be ready for the guests to return.

Farmer to Family Boxes Are Ending

The USDA is ending the Farmer to Family boxes on May 31st, 2021. Feed My People is receiving our last shipment this week. You should be able to order them into early June from the Partner Hub. Once they are gone, you will have to transition to purchasing and offering your guests different food items.

Didn't Get a Product You Ordered?

We have wonderful volunteers who pick your orders to get them ready for your delivery or pickup. There may be times where they miss an item or we discover a case is broken or bad and cannot fulfill your order.

When you receive your packing slip at delivery, always check the "notes" section at the very bottom of the slip. If we could not fulfill a product, it is noted there as deactivated. We did not charge you for this product and you do not need to fill out the "Report a Discrepancy" form for this product.

If a product is listed on your packing slip and you did not receive it, please go to our website and fill out the ["Report a Discrepancy" form](#). Within 3 days you will see a "Credit Memo" show up in the "My Documents" section of the Partner Hub. This credit will be reflected in the next monthly statement.

If you let us know you received extra product on the ["Report a Discrepancy" form](#) and you are ok keeping the product, you will see a new order and invoice appear in the Partner Hub to charge you for the product.

Emergency Broadband Benefit

Your pantry and program guests may be eligible for a discount on broadband services. Check out [this flyer](#) for more information on who is eligible and how to apply for this benefit. Feel free to copy and distribute this information.
